

DAEMON X MACHINA

THE FUTURE OF MECH-ACTIONS GAMES IS HERE!

Defend the planet and defeat corrupted A.I. controlled robots using your Arsenal, a fully customizable mechanized battle suit. Choose and equip your Arsenal with a multitude of weapons, obtain more from downed enemy Arsenals, and swap them on the fly to suit your strategy in the face of ever-changing threats that may bring the end of the world.

It was the greatest disaster in recorded history... The moon tore apart, turning the sky into a kaleidoscope of red light that illuminated all who watched from below. Survive this apocalyptic new age as a mercenary and pilot powerful mechs in this brand-new action game from Kenichiro Tsukuda (Armored Core) and mech designer Shoji Kawamori (Super Dimensional Fortress Macross).

FEATURES:

- The player's avatar is customizable with a variety of options
- Each Arsenal can be equipped with different weapons on its arms and shoulders, as well as reserve weaponry on its back that can be swapped out during battle
- Defeated enemies drop ammo and weapons, which the player can obtain and use on the fly
- Online* and local wireless multiplayer** modes support up to 4 players

*Nintendo Switch Online membership (sold separately) and Nintendo Account required for online play. Not available in all countries. Internet access required for online features. Terms apply. nintendo.com/switch-online
